PROFESSIONAL SUMMARY

Computer Science & Engineering student specializing in Data Science with a strong foundation in Full-Stack Web Development and AI integration. Proven experience through a technical internship at **IIT Hyderabad**, where I developed responsive web solutions. Successfully built and deployed complex projects, including an **AI-powered Career Guidance & Resume Analyzer** and real-time communication tools using Python, Flask, and JavaScript. Adept at leveraging UI/UX principles in Figma to bridge the gap between technical functionality and user-centric design.

EDUCATION

College Name: Pallavi Engineering College

Course: BTech in Computer Science and Engineering (Data Science)

Duration: 2022 – 2026

Current CGPA: 7.0 (Up to 3rd Year)

PROJECTS

Developed a full-stack meal chatbot Meal Monarch

Detail-oriented Computer Science & Engineering student specializing in Data Science with a strong focus on full-stack development and UI/UX design. Proven ability to deliver technical solutions under pressure, recently leading the web design phase for a high-stakes **college hackathon** to create intuitive, user-centric interfaces. Combining a technical internship at **IIT Hyderabad** with the development of **Meal Monarch**—a full-stack nutritional chatbot built on **Python and Flask**—I excel at translating complex data requirements into seamless, high-performance web applications.

AI Career Guidance & Resume Analyzer

Spearheaded the development of an AI-powered Career Guidance & Resume Analyzer, leveraging Natural Language Processing (NLP) to bridge the gap between candidate profiles and industry requirements. Engineered a full-stack solution that parses complex resume data, calculates ATS compatibility scores, and generates personalized career roadmaps through intelligent data modeling. By integrating advanced Python frameworks with a user-centric interface, I successfully transformed static career data into a dynamic, actionable tool for professional growth, demonstrating a high level of competency in AI integration and predictive analytics.

INTERNSHIP

Company Name: Indian Institute of Technology (IIT), Hyderabad

- **Role:** Web Development Intern (Department of Computer Science and Engineering)
- **Duration:** 2 Months (April 1, 2025 – May 31, 2025)
- **Skills Learned & Demonstrated:** HTML5, CSS3, JavaScript (ES6+), jQuery, Bootstrap

Organization: VISWAM.AI (In collaboration with **Swecha Telangana & Meta**)

- **Role:** Summer of AI Intern
- **Duration:** June 29, 2025 – July 27, 2025 (4 Weeks)
- **Skills Learned & Applied:**
- **AI Models:** Gained hands-on experience in Artificial Intelligence and Machine Learning fundamentals.
- **Social Impact Tech:** Focused on building AI solutions specifically tailored for the **Global South**.
- **Collaborative Development:** Worked within a large-scale ecosystem to understand model deployment and data ethics.

SOFT SKILLS

- Problem-Solving
- Quick Learner
- Teamwork
- Communication

SKILLS

- **Programming Languages:** Python, JavaScript.
- **AI/ML & Data Science:** Machine Learning Fundamentals, Data Analysis, Data Preprocessing, Data Fundamentals, Natural Language Processing (implied by chatbot/resume projects).
- **Web Development:** Full-Stack Web Development, HTML, CSS, React, jQuery, Front-End Development.
- **Libraries & Tools:** Pandas, NumPy, AI/ML Model Development.

LANGUAGES

- **English**
- **Telugu**
- **Hindi**
